

STRESS: KNOW THE SIGNS

We all go through stressful times. In small doses, stress may be good for you when it gives you a burst of energy. But too much stress or stress that lasts for a long time can take its toll on your body.

If you're feeling overwhelmed by stress, you're not alone. In fact, a survey of Americans found that one-third of people are living with extreme stress. Get connected to how you're feeling and learn about the effects of stress on your whole body.

Stress can be toxic to your body!

BRAIN AND NERVES

Headaches, feelings of despair, lack of energy, sadness, nervousness, anger, irritability, increased or decreased eating, trouble concentrating, memory problems, trouble sleeping, mental health problems (such as panic attacks, anxiety disorders and depression)

SKIN
