Description:

MHA is dedicated to improving the mental health of all individuals and our community as a whole through advocacy, education and service. Innovative programs are the benchmark of MHA's success. In order to meet the ever-changing needs of the community, MHA continually evaluates its programs while remaining true to our mission.

We are a prevention and advocacy organization that provides online directories for mental health and other resources including online screenings. We provide consultative support in the area of suicide prevention through a state grant to support health departments and healthcare systems in more than 50 of the 72 counties in Wisconsin. We are committed to providing quality care and access to mental health and addiction services for some of our most vulnerable citizens through our outpatient clinic.
